

LG PuriCare™
Water Purifier

Directly Filtered from Tap

No more stagnant water. Directly filters water straight from the pipe into your cup, giving you fresh-tasting water every time.

No Water Tank Contamination

Hygienic water for you anytime. Tankless technology eliminates any concern about microorganism formation.

Unlimited Water Supply

Enjoy continuous drinking water supply even in times of high demand without the limitations of a water tank.

Instant Heating & Cooling

Tankless water purifier gets rid of the need to constantly reboil water, thus saving energy.

3-Stage Filtration System

The innovative 3-stage filtration effectively removes harmful particles and bacteria.

LG PuriCare™ Tankless water purifier consists of 3-stage filtration that is able to eliminate microorganism and 7 types of heavy metals* contained in the water. It is also Halal certified by JAKIM.

*7 types of heavy metals: Mercury, lead, arsenic, cadmium, iron, copper, aluminium. Issued by the Korea Water Purifier Industry Cooperative according to the Law for the management of Drinking water. This is based on the quality inspection report, and may differ depending on the actual use environment. The pore size of UF filter (2nd stage) is 0.1-0.3µm, fine particles and bacteria more than that size can be removed.

1 001-08/2018

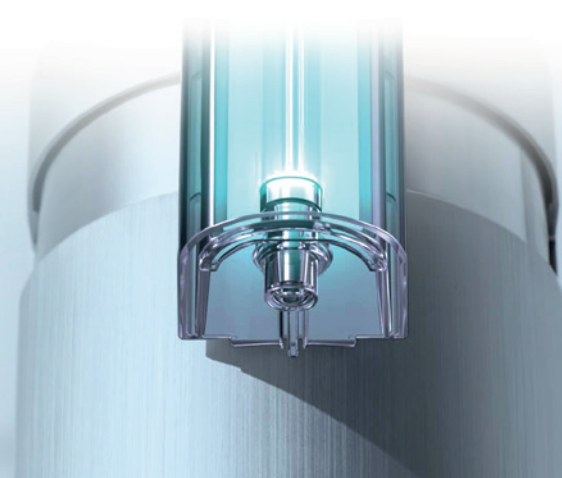

- 1 **Stage 1**
Pre Carbon Block Plus Filter
Removes heavy metals and organic chemical such as chlorine and chloroform.
- 2 **Stage 2**
UF Membrane Filter
Removes germs and fine particles.
- 3 **Stage 3**
Post Carbon Filter
Removes odor inducing substances and improves water taste.

2 Layers UV Sterilising Care

UV Sterilisation is automatically activated every hour or user can opt for manual sterilisation at anytime.

*UV LED sterilisation is limited to water outlet.

Tankless
(INSTANT HOT & COLD WATER)

Just One Touch To Enjoy Clean and Fresh Water Instantly

LG PuriCare™ Tankless water purifier provides clean drinking water by using direct water filtration without water tank. It is as simple as one touch to get hot, cold and ambient water right away. Tankless is also the latest technology trend which eliminates the concern of microorganism formation.

Ambient Water

Cold Water
Inverter Compressor

Hot Water
Induction Heating

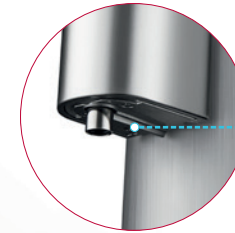

4 Directions Moving Tap

It is easy to access drinking water with 4 Directions moving tap. It will detect the cup and adjust the height automatically.

Up & Down Auto Moving Tap

Automatically moves up and down, so you don't have to touch it! It is hygienic because water does not splash everywhere. Especially with hot water, you can reduce the likelihood of burns.

The water tap (or moving tap) stops when the sensor behind the water outlet touches the cup.

Auto Cup Sensing

- Detect the cup and automatically stop
- Dispense water at the correct height of cup

Left & Right Moving Tap

Up & Down Auto Moving Tap

Swing Tray 180° Rotate

Efficient Energy Saving

LG PuriCare™ Tankless water purifier adapts the advance technology of Inverter Compressor and Induction Heating (IH) System for users to enjoy hot and cold water in an energy saving way. LG PuriCare™ is also the first in the industry to provide 10 years compressor warranty for water purifier.
